## The Affordable Solution to Jail EMR Implementation

*Are you tired of the liability associated with your jail's healthcare system?*

*Are your inmates' medical paper trails becoming cumbersome to manage?*

*Do you wish there was an affordable answer to reducing your jails healthcare cost and medical liability while creating efficiencies for your medical staff?*

## Introducing CorrecTek's 10-4 EMR Affirmative

Whether it is to combat the increase in regulatory burden, decrease the liability of healthcare administration or to reduce the medical treatment costs during a period of economic uncertainty, it is essential to reduce the risks associated with your correctional medical facility. With shrinking county budgets and other financial constraints, finding the funding for a robust jail electronic medical records system is difficult...*until now*. CorrecTek is pleased to offer its jail "stimulus plan" **10-4 EMR Affirmative**.
